REPORT OF LIBRARY TRUSTEES

During the year 1932 the library has circulated 98,848 books and magazines, an increase of 5,002 over last year. This increase shows that the library is becoming more and more a means of helping people through the depression. Quite apart from the practical help is its service to the spirit of the community. It helps to sustain the morale of the people. It gives courage to those out of work and helps others to escape the fear of a like fate. The public library may be said to be a spiritual relief agency and well deserving of support.

There has been an increase in fiction reading. Fewer children's books have been circulated due to the fact that so few books

have been added. In other classes, biography, history, useful arts, and literature show the largest gain.

Seven hundred and seventy-seven books have been added of which 242 were gifts.

The usual activities of the library have been carried on though the service has been greatly hampered by the decreased appropriation and the increased work. The library staff has been reduced to three. No binding has been done, the telephone has been disconnected, lights have been shut off and many other economies practiced in order to save money. The money saved has been spent for books but even so it has been impossible to supply the ever increasing demand and need. The public has shown a fine spirit of cooperation, not only in accepting the situation but by giving generously from their own libraries.

Books have been sent as usual to the Hospital, the Frances J. Tolles Home, the County Home and to the schools.

The reading and reference rooms have been used more than in any previous year.

During the summer considerable work was done down stairs arranging and labeling the minerals. When completed the Memorial room will be an interesting and valuable addition to the library.

The Jarvis Bird Collection which has always been such a delight to the children as well as to older people is now housed in the Mineral room where it may be seen to much better advantage.

The magazine room has been given a thorough over hauling.

During Good Book Week the library had an exhibit of books from the Carolyn Stoughton Book Shop.

An exhibition of Mrs. Ralph Kiniry's paintings was held early in the fall which attracted much favorable comment.

Following is a list of people to whom we are grateful for gifts:— Mr. Albert H. Allen; Miss Effie Blanchard; Mr. Gilbert A. Bourlet; Miss Grace Colby; Mr. M. F. Colby; Mrs. Kate Costello; Miss Mildred Converse; Miss Harold Davis; Miss C. Isabel Dutton; Mrs. Clifton Densmore; Mr. Charles M. Easter; Mr. Allan Evarts, Windsor, Vt.; Mr. John L. Thanks are due the local papers for their kindness in printing library notes and book lists.

Chief Engineer's Report

To the Board of Selectmen:

Bell alarms received at the Central Fire Station during the twelve months ending January 31, 1933, totaled 15, a decrease of two from the total of the previous year. Over the same period 224 still calls were received, a marked increase over last year's total of 184. The total of both bell and still alarms was 239, which while greater than for the year ending January 31, 1932, was well under the figure for the year preceding. Many of the still calls were for fires which without prompt notification and response might have developed into major conflagrations.

The fifteen bell alarms for the year were as follows;

Feb. 15—Box 22, 5:45 p. m., Joseph Dubois home, Front street.

Apr. 18—Box 31, 6:10 p. m., truck fire, Lafayette street.

May 1—Box 22, 12:30 p. m., Tontine block, Main street.

May 17—Box 47, 6:20 p. m. chimney fire, Elm street.

May 17—Box 33, 11:45 p. m. T. S. Thompson home, West Claremont.

May 20—Box 33, 12:30 a. m., false alarm, West Claremont.

June 5—Box 47, 9:35 p. m., North Street schoolhouse.

July 6—Box 47, 3:15 p. m., Victor Kolenda store, Elm street.

Sept. 9—Box 16, 4:00 p. m., Joseph Piette barn, Pearl street.

Oct. 2—Box 35, 7:55 a. m., Elizabeth Tupper home, South street.

Oct. 27—Box 22, 5:30 a. m., Claremont Waste Co., Elm street.

Dec. 14—Box 26, 9:10 p. m., false alarm, Main street.

Dec. 23—Box 26, 10:45 a. m., St. Mary's Convent, Central street.

Dec. 26—Box 22, 1:10 p. m., chimney fire, Factory street.

1933

Jan. 27—Box 24, 5:20 a. m., E. H. King home, Pearl street.

The report of all brush and woodland fires will be found under the Forest Fire Warden's report.

HYDRANTS

No new hydrants have been added to the town system during the past year. The hydrant on Crestcent street near Pagan's

garage, formerly hooked up with the Monadnock Mills system, has been connected with the town water system.

FIRE ALARM SYSTEM

No new fire alarm boxes have been installed during the past year, the present number being in the opinion of the Department adequate to care for the town's needs. The system is functioning satisfactorily and is being maintained at its usual high standard of efficiency.

RECOMMENDATIONS

No recommendations for new equipment or apparatus are believed necessary at this time, and no appropriations are sought beyond funds sufficient to maintain the Department in the customary manner.

REMARKS

Once again Claremont has been unusually fortunate in the matter of fire loss, which has been restricted to a gratifyingly low level through the cooperation of townspeople with the Department. The loyalty and efficiency of Claremont's fire fighters is a source of gratification to myself as Chief and to the community as a whole. I would bespeak the continuance of this cooperation and would urge particularly the elimination of fire hazards in homes and places of business and the prompt notification of the Department in the discovery of minor blazes.

C. E. SEARS, Chief Engineer.

Fire Warden's Report

For the year of 1932

To the Selectmen and Citizens of Claremont, N. H.:

I would respectfully report there were six forest fires during the past year. Two of these fires were caused by the Boston & Maine R. R. Co., and the cost has been taken care of by them. The total cost of this department was \$98.55.

I wish to thank all those who assisted me, and the general public for their cooperation.

Respectfully submitted,

P. J. SHERIDAN, Forest Fire Warden.

Health Officer's Report

To the Honorable Board of Selectmen:

I herewith submit the annual report of the activities of the health department of the town of Claremont for the year ending January 31, 1933.

The health record for the past year shows an increase of about 140 per cent over that of the preceding year, in the number of cases of communicable diseases reported; this marked increase was due to some extent to the epidemic of measles, that prevailed during the winter and spring months.

COMMUNICABLE DISEASES

A total of 292 cases were reported as follows: measles were in the lead with 154 cases; 20 cases of scarlet fever; 10 cases of chicken pox; 2 of influenza; 1 of mumps; 10 of pneumonia; 13 cases of tuberculosis; 4 deaths; 3 cases of undulant fever; 1 case of tularaemia; 16 whooping cough; 62 cases of venereal disease.

Prompt reporting of a case of any communicable disease aids materially in the control of such disease, and it is the duty of every private citizen, as well as the attending physician to make sure that our department has an early report on every case of communicable disease.

DIPHTHERIA

For the first time in the history of this department there has been no diphtheria during an entire year. This record is a most convincing argument in favor of the work for the prevention and eradication of diphtheria that has been carried on for several years past, by giving free inoculation each year to all children, not immune to the disease and whose parents would give consent for the inoculation.

As a result our school children are today nearly 100 per cent immune, also a large percentage of the pre-school age are fully protected against diphtheria.

TUBERCULOSIS

The following is Miss C. M. Gobie's report of the activities of the N. H. Tuberculosis Association Clinic and Nursing Service in Claremont for the past year.

No. of clinics held	8
No. of persons examined	272
No. of new positive cases	13
No. of new suspicious cases	21
No. of patients whose tuberculosis is arrested	1
No. of patients apparently cured	8
No. of patients reexamined, found improved	114
No. of patients sent to sanatoria, through clinic	10
No. of positive cases, now under supervision	151
No. of suspicious cases, now under supervision	88

INFANT WELFARE

The division of Maternity, Infancy and Child Hygiene, of the State Board of Health, with Miss Elizabeth Carriel, Public Health Nurse as local supervisor, is one of the very important factors in the public health work and whose service is of inestimable value to the mothers and children of the community.

In addition to the routine work of the Division, a two day child's health conference was held in Claremont for children of pre-school age. At this conference 175 children were given complete physical examinations by local physicians; of those examined 128 were found to have defects, while the remaining 47 were found to have no defects.

The purpose of these clinics is to prevent illness, therefore children should be registered at an early age. Proper supervision of the young child is very important so as to detect and correct physical defects as early as possible in the child's life.

VACCINATION

Public health laws of the State, require that every child attending a public or private school shall be vaccinated, unless such child has had the small pox or is declared to be physically unfit to be vaccinated.

This law has been strictly enforced in Claremont.

VENEREAL DISEASE

Syphilis, gonorrhea, and chancroid, designated as venereal diseases, are declared to be contagious, infectious and communicable, and dangerous to the public health. Physicians who make

a diagnosis in or treat a case of venereal disease are required to report the case immediately to the local health officer, who in turn shall report same to the State Board of Health.

No druggist, or any other person, other than a licensed physician shall prescribe, sell or give any drug, medicine or other substance to be used for the cure or alleviation of this disease.

GENERAL SANITATION

Our routine inspection of food stores, hotels, restaurants, lodging houses, fruit stores, ice cream plants, bakeries, meat markets, barber shops, etc., are usually made in company with the State Inspector. In general, proprietors of these places are careful to observe the pure food laws and all sanitary regulations. All complaints made to this department regarding unsanitary conditions anywhere, are carefully investigated and if the complaint is substantiated by conditions found, an order is given for the abatement of the nuisance.

Respectfully submitted,

W. P. PRESCOTT, Health Officer.

American Red Cross

During 1932 the total number of home visits were 3,056, and may be classified as follows:

Medical	642
Surgical	368
Maternity	993
Deliveries	17
Prenatal	249
Child Welfare	577
Communicable	12
Tuberculosis	6
Business	192
	3,056

The visits were paid for as follows:

Metropolitan Life Insurance Co.	1,065
John Hancock Life Insurance Co.	314
Paid and part paid	199
Unpaid visits	1,478
	3,056

The twelfth class in Home Hygiene was begun in October. Meetings are held weekly in the afternoon.

Birth certificates of all babies in town are delivered from the Town Clerk's Office to the respective babies' homes.

Three hundred and twelve babies were weighed and advised at the Red Cross Office during Saturday afternoons.

Office hours are held daily from 1 to 2 p. m.

MRS. ELSIE C. REYNOLDS, R. N.

Report of Building Inspector

For the year ending December 31, 1932

To the Honorable Board of Selectmen:

There were 6 new houses, 20 garages, 1 woodworking shop, 5 barns, 11 poultry houses and 1 private greenhouse built during the past year. The rest of the building done has been for alterations. There were 152 permits issued. The estimated cost has been \$55,392.00.

Respectfully submitted

W. E. ROUNDY, Building Inspector.

Report of Milk Inspector

For year ending February 1, 1933

Milk inspection has been carried on more extensively this year than usual. Some three hundred and fifty visits have been made to farms and dairies, about one hundred visits to stores and barns and dairies scored. Milk samples have been sent to Concord for examination. I have tested quite a few of the cattle supplying milk to Claremont for Mastitis and several cattle removed from the herds and others vaccinated against this disease. No reactors have been found to the tuberculine test during the past year from herds supplying milk to Claremont.

There are two pasturizing plants, two Grade A Dairies, and some sixty producers of market milk and cream supplying the Claremont district. Another pasturization plant is in the process of construction.

Milk and cream from outside sources has been prohibited sale in Claremont in three instances on a large scale and several times in smaller quantities. Several dairies have been prohibited sale of milk and cream due to improper conditions.

While we have had a few supposed milk borne diseases during this past year none of them could be traced to our supply.

It is my earnest hope that the people of Claremont will appreciate the fact that a really good quality of milk cannot be made and sold at cut rate prices and the producer exist for a very long time. Something has to be neglected, and that "something" may be very important to the health of the community and escape the notice of the inspector or be neglected when he is not around. A cent or two a quart doesn't mean life or death to the consumer on the few quarts he uses, but it does spell failure or something neglected to the producer, and I am afraid of what is neglected.

We have all been very fortunate in the past and let us all work together in the future so that Claremont can boast in years to come that our milk supply is one of the best in the state and that no epidemics have been caused from its source.

Respectfully submitted,

L. R. HAUBRICH, V. M. D.
